Starting Point 1979 1996 By  
His Starting Point,  
1979-1896 reads like the  
results of going through old  
files and publishing some  
rather than trashing them  
all. I had hoped to gather  
some combination of who was  
the young Miyazaki, how he  
matured as an artist and  
some information on terms  
like Manga and any of the  
several forms and styles  
that in fact are mentioned  
in this collection.
